

Resolution GA/ 1.2

Sponsors: Central African Republic, Vietnam, Ukraine, and the Netherlands
Signatories: Italy, the United States of America, Zimbabwe, Cameroon, Saudi Arabia
Topic: Water and Water Contamination

General Assembly,

The water is important because is basic human rights and its basic in needs. In the world there are 1.5 million its for water contamination.

The water contamination affects a many people in poor countries.

1. Recommends that the rich countries should help the countries that need clean the water;
2. We propose extend programs as the MAMA 86, WASH, and Safe Drinking Water Act from USA;
3. We affirms the rich countries give money for poor countries and this built solar panels and clean energy for don't contamination;
4. Expressing that the rich countries should 15% of the Government money for poor countries for purify water;
5. The United Nations should continue funding and assisting programs to give poor countries clean water, sanitation, and hygiene;
6. If other countries reduce pollution, other countries will not have problems with water, because pollution affects climate change; and
7. Create infrastructure for piping water, which would make it easier for people in our country to get water.
